

## Apros Initial Training Course

Apros® Initial Training Course will be organised by VTT Technical Research Centre of Finland on June 5th – 7th, 2012.

Apros is a tool for the modelling and dynamic simulation of industrial processes. Using Apros one can build up a dynamic model of the installation including process, piping, automation and electrical systems, based on diagrams and engineering data. Apros is used globally e.g. in process and automation engineering, safety analyses and training systems.

For more information about Apros see [www.apros.fi](http://www.apros.fi)

The three-day Apros Initial Training Course is targeted to new users, and no modelling background is required. During the course the principles of using the software are introduced, the available unit model libraries are presented and example models are built up in hands-on exercises. The course is supervised by top experts from the Apros maintenance staff. The course gives sufficient knowledge to join a project team creating and using Apros simulation models.

The lectures and exercises take place in the computer classroom 1217 of the VTT main building, Vuorimiehentie 5 (Otaniemi), Espoo, Finland. For a map, see:

[http://www.vtt.fi/files/vtt/vtt\\_mapespoo.pdf](http://www.vtt.fi/files/vtt/vtt_mapespoo.pdf).

The price for the course is 1200€ + VAT.

The seating is limited to twelve trainees, and the trainees are admitted in the order of registration. For registration, please use the attached registration form. VTT will then send a confirmation message by e-mail.

For more information about the course and assistance in practical arrangements, please do not hesitate to contact us.

### Contact person at VTT

Mr. Sixten.Norrman E-mail: [sixten.norrman@vtt.fi](mailto:sixten.norrman@vtt.fi)

Phone: +358 40 593 8685

### Contact person at Fortum

Mr. Tommi Henttonen E-mail: [tommi.henttonen@fortum.com](mailto:tommi.henttonen@fortum.com)

Phone: +358 40 830 7893

## Registration to the Apros training course

To register on the course, please fill in this registration form and send it to the Apros Support team / Sixten Norrman.

E-mail: sixten.norrman@vtt.fi  
Fax: +358 (0) 20 722 5000  
Mail: P.O.Box 1000, FIN-02044 VTT

The deadline of the registration is May 22<sup>nd</sup>, 2012
